

TEN MILES OF GRADING

Contracts Let Yesterday for Another Stretch

OF THE ORIENT RAILWAY

Heavy Work Which Will Involve a Neat Sum.

Yesterday W. C. Edwards of the Orient Construction company, returned from Fairview, Oklahoma, where a contract was let for ten additional miles of railroad grading south to the river. This is one of the heaviest pieces of work on the line of the road, the topography of the country being very rough, and the contractors have been given four months to complete it, beginning on December 1. Mr. Edwards says that the work of grading alone will cost between \$5,000 and \$12,000 per mile, contingent to the amount of road to be constructed. The work shall be first class when completed, the specifications of every mile of the road calling for high class work. Mr. Edwards was unable to say when work would begin in Wichita. He thought a great mistake had been made that a local construction company was not formed on his suggestion eight or nine months ago. He thought that if his plan was accepted by the local business men at that time, the road would now be running between here and Fairview. He thinks, however, that everything will be all right and that work on this end of the line will not be postponed much longer.

DO NOT DOSE THE STOMACH.

Cure Catarrh by Nature's Own Method—Every Breath of Hymel Brings Relief.

Nearly everyone who has catarrh knows how foolish it is to try and cure it by dosing the stomach. Temporary relief may be given, but a cure seldom comes.

Until recently your physician would have said the only way to cure catarrh would be to have a change of climate; but now with Hymel you can carry a health giving climate in your vest pocket and by breathing it a few minutes four times a day soon cure yourself.

The complete outfit of Hymel costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hymel. The inhaler lasts a lifetime, and there is enough Hymel for more than a month's treatment of catarrh. If one bottle does not cure, an extra bottle of Hymel can be obtained for fifty cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows nature in her method of treating diseases of the respiratory organs.

The leading druggists of this city have sold hundreds of Hymel outfits and the more they sell, the more convinced they are that they are perfectly safe in recommending to refund the money if Hymel does not cure.

Those who are subject to catarrh or catarrhal colds will do themselves an injustice if they do not purchase a Hymel outfit at once, so as to be prepared for the sudden changes of the season.

GIVEN A FINE PICTURE

Police Force Made a Fine Present to Their Chief.

Last night as the day force was going off watch and the night force was going to work, the policemen of the city of Wichita gathered in the police court room and after calling their chief into their assembly, Judge Stanley presented him with a fine pastel portrait of himself on behalf of the force. The portrait is a large one, excellently executed and in a fine gilt frame, and now adorns the walls of the chief's private office. After the presentation speech by Police Judge Stanley, Chief Burr made a short speech of acceptance and passed around a box of fine cigars.

In presenting the picture, Judge Stanley said: "It is a pleasure this evening to look into the faces of the honorable police force of the city of Wichita—Wichita, the queen city of the west, boasts of her magnificent citizenship, her institutions, her business interests and her wonderful progress along all lines—and she further boasts of the protection guaranteed her every interest and her every home by her well organized and efficient police force."

"Every evening a corps of strong, capable men march out from the city build-

ing, sentinals guarding the interests of the city and protecting the citizens from harm. Every morning another corps goes forth on the same mission. All the elements of true manhood are essential in these guards if the city's rights, having compassion, wisdom, and I can proudly say that no city boasts of a manlier, kinder, braver, big-hearted police force than does our fair city.

"At the head of this corps of officers is our Chief of Police—Frank S. Burr—a man thoroughly conversant with the duties of his office; magnanimous, manly, brave and fearless when duty calls, an executive officer of unusual ability, having done much for the advancement and equipment of his force—whom every desire and effort has been to equip and organize his corps of men as perfectly as possible. His duties as chief of police are arduous and manifold. But we are proud to say no city boasts of an abler man and tonight, as a token of their friendship, of their high appreciation of his ability as their leader, as a mark of their appreciation of his many kindnesses to them, the regular police force request that I present to you, Mr. Burr, the handsome pastel portrait of your manly self, and in so doing, they pledge you loyalty and earnest cooperation in your effort to provide for the common safety of our beloved city."

E. BRONSTON TO BUILD

Will Erect Three-Story Brick Building on East Douglas Avenue.

Mention was made in the Eagle several days ago that E. Bronston, a clothier on East Douglas, had bought property on that street, paying \$5,000 for it. The property is the third lot east of Emporia, on the north side of Douglas, and has on it at present a small frame building.

Mr. Bronston said last night that he would tear down the frame building and would begin work on a large, three-story building immediately. It will be of brick, with a 25-foot front, and will extend back from the street 125 feet. The lower floor will be used as a store room, and will be fitted up in an up-to-date style. Mr. Bronston has not decided yet whether he will occupy this store room with his clothing establishment or rent it. The second and third floors will be made into offices, and are nearly all spoken for now, and the building not yet commenced.

Mr. Bronston's first intention was to build only a two-story structure, but he was immediately shown the need of more office room in the city and added another story for that purpose. He expects to invest about \$10,000 in building it and will have a modern building throughout.

While speaking of the building yesterday Mr. Bronston said: "I have lived here and been in business here for fourteen years, and have watched the growth of our city. The growth she is making now is not caused by any boom, but is the steady growth which makes cities. The capital being invested here now is by people whose homes and interests are in Wichita, and the price paid for property are paid on real value."

WRIGHT WOUNDS NO MAN

Wright wrongs no man. Wright's old-fashioned buckwheat flour is pure.

CASE IS APPEALED

Teddy Murphy Will Try His Issues in District Court.

Teddy Murphy filed an appeal in the district court yesterday from the lower court in the case brought against him before Judge Harvey in which it was set up that he encouraged a certain female dog which he owns to attack one Rachel White, biting, wounding and harassing her contrary to the laws of the state of Kansas for the protection of its citizens.

DOCTORS TO MEET TODAY

Fall Session of Medical Society Opens This Morning.

AT ST. FRANCIS HOSPITAL

Clinic Will be Held—Papers and Talks This Afternoon.

Today and tomorrow Wichita physicians entertain the members of the South Kansas Medical Society. Over 500 invitations have been sent out and while most of the members live in southern Kansas many have moved to other states and a wide scope of country is expected to be represented here at the meeting. The leading physicians of the state will be present, and as the topics to be discussed are purely professional, it is expected to be of great benefit to physicians in general, all of whom are invited to be present.

This society was organized over fifteen years ago and has been the source of great benefit to all the members. When men who are as high up in the profession as are many of these, get together and exchange ideas, things are brought out and discussed, about which it is impossible to get satisfaction from books.

Two meetings are held each year and this is the last meeting of the year. The officers this year are: President, J. R. McCullough, M. D.; first vice-president, D. W. Basham, M. D.; second vice-president, W. H. Graves, M. D.; secretary, A. D. Jones, M. D. The program committee are: Geo. K. Purves, M. D.; J. D. Clark, B. S. M. D.; Chas. D. Strong, M. D.

The meeting opens this morning at 9 o'clock with a surgical clinic, which will last until 1 p. m. This will be held at St. Francis hospital. In the afternoon the society will meet in the music hall in the Seigwick block and the afternoon will be given up to the discussion of various sorts.

Tonight the visitors will be given a banquet at the Hamilton hotel, which according to expectations will compare favorably with the recent Masonic banquet. Work will again be taken up Wednesday morning and papers and discussions will fill up the day, closing with a medical clinic conducted by R. B. Preble, of Chicago.

The full program for today is as follows:

- 9 a. m. to 1 p. m.—Surgical clinic at St. Francis hospital.
- 1 p. m. to 5 p. m.—Business meeting.
- 5 p. m. to 8 p. m.—Banquet at Hamilton hotel.

1. Heredity—Bassett's operation.
2. Herniotomy—Andrew's modification of Bassett's operation.
3. Nephropexy.
4. Nephrotomy.
5. The Removal of Double Pterygium.
6. Two Operations for Varicose Veins and Ulcers (Modified Schedules).
7. P. M. BUSINESS MEETING.
Cora Vera Adolescentum with exhibition of cases. Dr. A. E. Herdier, M. D., Kansas City; discussion opened by J. E. Oldham, M. D., Wichita.
First Aid Dangers—J. D. Clark, B. S. M. D., Wichita; discussion opened by Geo. Emerson, M. D., Winfield.
Some Advantages of Hospital Treatment—J. A. Axtell, M. D., Newton; discussion opened by C. C. Purves, Wichita.
Report of Case of Chronic Complication Due to Colostomy—A. H. Fabrique, M. D., Wichita; discussion opened by S. L. Morgan, M. D., Hobart, O. C.
8 p. m.—Banquet, Hamilton hotel.

HOLDING SPECIAL SERVICES

Rev. E. B. Hermonist Conducting Them at Oak Street Church.

Special Evangelical services are being conducted in Oak Street Presbyterian Church by M. E. Byrson Hermonist of Ohio. Mr. Hermonist has been sent to Kansas by the evangelistic committee of the Presbyterian church and begins his work in Wichita. Heretofore his labors have been confined to Ohio and adjoining states and this season he was compelled to cancel engagements in that region in order to accept the committee's call to work in Kansas. Already by his gentle manner, earnest preaching and sweet singing Mr. Hermonist has won the sympathy and favor of the congregation and the meetings give promise of increasing usefulness. Services evenings at 7:45. Everybody welcome.

JUST FILED HIS PATENT

Charles H. Gill Records Original Instrument of Conveyance.

Yesterday Mr. Charles H. Gill filed in the register of deeds office a patent granted to him in 1882, which was, from his date, one of the first instruments signed by Chester A. Arthur as President of the United States in succession to Garfield who died a day or two before the patent was made from the bolt wound inflicted by Charles J. Guiteau. Mr. Gill has had the patent for twenty-two years to the last half of the northeast quarter of section 19, 21, 1 West, for twenty years without filing it.

WEDDED IN KANSAS CITY

Miss Norrene Married Sunday Even.

In Kansas City last night at 8 o'clock occurred the wedding of Miss Norrene O'Brien and Mr. Joseph Hudson. Miss O'Brien's home is in Kansas City and Mr. Hudson just left here the last of the week for that place. He is well and favorably known here, having been a clerk in Stanford's drug store for some time. The happy couple was expected to arrive in the city last night, and will be at home to friends, after Wednesday, at 338 South Lawrence.

FORMERLY OF WICHITA

William H. Livingston Visiting Old Landmarks.

William H. Livingston of Kansas City is in the city visiting friends. Little seven years ago Mr. Livingston was a familiar figure in business circles, being connected with L. D. Skinner's state bank, until recently Mr. Livingston was connected with the Kansas City company, but sold out his interest and is now free from business engagements. He says he is in no hurry to turn a business alliance and will devote the winter to the study of favorable openings. He will soon make a visit to Cuba to investigate business opportunities there and will probably remain a month on that island.

He thinks there are openings there for financial enterprises. In talking with a reporter about former Wichita men, Mr. Livingston said that L. D. Skinner has a fine position with a big trust company at Chicago, where he is co-comptroller of the currency. The second highest officer in the company—first vice president is Captain W. L. Osborne, formerly a well known lawyer and club man of Wichita. Captain Osborne's salary is \$7,000 a year and he has active charge of the entire business involving something like \$10,000,000.

Mr. Livingston met many of his old Wichita friends yesterday and all of them tried to persuade him to locate here, impressing him with the fine future prospects of this city.

BRIEF WEDDED LIFE

C. F. Lewis Asks for a Divorce From His Bride.

C. F. Lewis filed a suit in the district court yesterday asking for a divorce from his wife—his bride it might be said—Annie Lewis. On the second day of last August this young couple threw up orange blossoms to the altar of love where they vowed to love and honor and cherish each other till death. Their future was very bright and they entered upon their honeymoon the happiest couple on earth. But soon a little-ness seized the bride, according to her spouse, and as early as the sixteenth day after their hearts were united in one her love for him was cold. More than that, according to statements in his petition, she began the demoralizing family custom of remaining out late at night and neglecting her domestic duties. Finally about September 14, six weeks after being married she abandoned him and went to St. Louis, Missouri, where she has since remained, positively refusing to return to the home he had provided for her. In addition, this blushing bride, according to his position, cruelly abused him during their brief period of wedded life and he asks for an absolute divorce from her.

MR. MARTLING WINS TROPHY

He Beats Victor Murdock in Knight Cup Finals.

Yesterday afternoon E. L. Martling beat Victor Murdock in the Knight Cup contest three up and one to play, entitling Mr. Martling to the handsome trophy. Mr. Martling had a handicap of seven, and is playing a steady, superior game. Yesterday the game was interesting. Murdock took the first three holes, but as handicaps applied to number one and number two, this made him only one up. By a fine drive and second shot, Mr. Martling took the fourth hole, tying the game. Against a heavy wind, Mr. Martling got number five in five strokes, making him one up. Both were to number six on the fourth stroke. Murdock won it and tied the game. The seventh hole was halved. In going to eight, Murdock got into heavy grass and had trouble in getting out, it taking him twelve to hole down. Martling made a fine stroke and was one up. On number nine Martling made the better loft and got four and the hole, making him two up on the first round. In going to number one in the second round Martling took it by a long, brilliant putt. They tied on number two, the hole going to Martling on handicap. Martling was four up. They tied the third hole. Martling got the fourth hole, making him five up. This was five up for Martling and five to play—Murdock got the next, making it four up and four to play, and the next, making it three up and three to play, and also number seven, making Mr. Martling two up and two to play. Mr. Martling took the next hole and the game in six strokes—three up and one to play. They played in to the last hole, which Murdock won.

Mr. E. B. Hull was score-keeper and J. D. Ritchey referee. The card was as follows:

Martling out ... 6 6 5 5 5 5 5 4-40

Murdock out ... 5 5 6 6 7 5 12 6-55

Martling in ... 5 5 6 6 5 5 6 6-58

Murdock in ... 6 6 6 7 7 7 4 7-52

Martling wins by three up and one to play. Handicaps: Martling 7, Murdock 1.

SHEETZ BLOCK TRANSFERRED

Deed in Favor of Mr. Liggett the New Owner, Filed.

Yesterday the deed was filed in the office of register of deeds which conveys from W. T. Tucker and O. C. Daley to Wm. M. Liggett, of San Francisco, Cal., what is known as the Sheetz block on the southeast corner of Douglas avenue and Market street. The consideration stated in the conveyance is \$20,000.

SCARCITY OF CARS

Grain Piled in Heaps Along Branch Lines of Railway.

The demand for cars is getting fierce in Wichita, elevator men being especially clamorous in their appeals to the railway companies for them. To get the surplus grain of the surrounding country to Wichita is a problem the immediate solution of which is a crying necessity. At the offices of the Wichita Board of Trade yesterday the unhappy gentlemen who deal in grain were in little better frame of mind. One of them was down in the railroad yards and he saw the blissomeness of a better crop of cars, that is, he saw some cars with cotton sheds in them which is a sign that the roads have done the bulk of the work in the Oklahoma and Texas cotton belt and are withdrawing the cars from there. David Heenan said that the country elevators are congested and that along the branch roads up and down the valley grain is piled in heaps without shelter. He considers the condition serious.

THE CHILDREN ENJOY

Life out of doors and out of the games which they play and the enjoyment which they receive and the efforts which they make, comes the greater part of that healthful development which is so essential to their happiness when grown. When a laxative is needed the remedy which is given to them to cleanse and sweeten and strengthen the internal organs on which it acts, should be such as physicians would sanction, because its component parts are known to be wholesome and the remedy itself free from every objectionable quality. The one remedy which physicians and parents, well-informed, approve and recommend and which the little ones enjoy, because of its pleasant flavor, its gentle action and its beneficial effects, is—Syrup of Figs—and for the same reason it is the only laxative which should be used by fathers and mothers.

Syrup of Figs is the only remedy which acts gently, pleasantly and naturally without griping, irritating, or nauseating and which cleanses the system effectually, without producing that constipated habit which results from the use of the old-time cathartics and modern imitations, and against which the children should be so carefully guarded. If you would have them grow to manhood and womanhood, strong, healthy and happy, do not give them medicines, when medicines are not needed, and when nature needs assistance in the way of a laxative, give them only the simple, pleasant and gentle—Syrup of Figs.

Its quality is due not only to the excellence of the combination of the laxative principles of plants with pleasant aromatic syrups and juices, but also to our original method of manufacture and as you value the health of the little ones, do not accept any of the substitutes which unscrupulous dealers sometimes offer to increase their profits. The genuine article may be bought anywhere of all reliable druggists at fifty cents per bottle. Please to remember the full name of the Company—

CALIFORNIA FIG SYRUP CO.—is printed on the front of every package. In order to get its beneficial effects it is always necessary to buy the genuine only.
